On 24 July 1953, 36 II-10s with yellow and blue propeller hubs and 4 Po-2s were counted at Reinsdorf airfield. There was air activity. At about 3 p.m. on 27 July, the same number of aircraft were parked at the field as on 24 July. About 100 EM were engaged in off duty activities and 30 to 40 men were cleaning motor vehicles. Trucks

were observed at the field.

Comment. A ground attack regiment is stationed at Reinsdorf airfield. According to observations made during the last months, the previously assumed strength of about 55 Il-los appears too high. It is believed that about 40 Il-1's are stationed at the field. The aircraft of the regiment have blue upper edges on their rudder assemblies as a tactical unit symbol. The different colors on the propeller hubs probably indicate assignments to the various squadrons.
